"Strengthening our local economy"

AGNeighborNews@aol.com

1<sup>st</sup> Year, No. 1

## Getting to Know Us

Introducing: A Good Neighbor News; a monthly publication brought to you by the Dwyer family of Middlebury

### Participating Merchants:

Look inside for their valuable coupons.

- A Good Neighbor Heating & Cooling
- Amis Chiropractic
- Crystal Valley Equipment
- Crystal Valley Lawn Care
- Dutchman Furniture
- Dunkin Doggies
- Dutch Country Market
- E & S Sales
- Fork's County Line Stores
- Healthy Pets
- J & J Lawn & Garden
- Jerry's Standard Service
- L & R Marine
- Mediterranean Garden
- Mor for Less Grocery Store
- Pumpkin Patch
- River Inn Restaurant
- Rob's Barber Shop
- Varns & Hoover Hardware Store

As most of you know, we all lost a long-standing community paper in the recent past. Some of us looked to it as a source to reach out to prospective customers, some of us looked to it as a source for coupons for local merchants and others of us anticipated its arrival for other reasons altogether. Whatever the reason, we all feel a sense of loss.

The Dwyer family decided that now more than ever, our community needs an "in your face" supplemental paper that will offer the local consumer incentives to shop with local merchants. "It is vital that we sustain the small businesses in our small towns as we weather this economic storm" stated Bob. "If we keep our dollars in

our own communities, our communities can thrive even in the toughest of times."

A Good Neighbor News will be a publication that you can look forward to receiving on a monthly basis. Look for it in your mail the 3rd Saturday of every month Brenda explained, "It will be chock full of valuable coupons for you to redeem at the many participating local merchants. We want to help build a stronger, more vital community. We want to stay in a position to help our neighbors in tough times. This paper is not just about helping you save dollars or even helping you shop smart ... it is about educating you further on how to increase your home comfort now that you are finding yourselves at home more than ever". It is also about entertaining you while you are there. A Good Neighbor News will

offer ongoing articles about life in a small town as well as anecdotes and recipes for those so inclined to enjoy them. In addition, every month this paper will offer up some good tidbits on what's new in the Heating/Cooling/Home Comfort industry: what works, what doesn't and why.

The Dwyers are hoping that this small newspaper will help you during these challenging times and that you and your local merchants will develop an even stronger sense of community in the process. Welcome to A Good Neighbor News!

Feedback is encouraged. Please respond to: AGNeighborNews@aol.com. Please remit articles, recipes or other printed contributions to the same above email. We look forward to hearing from you!

For advertising information only, please call (574) 825-1677.

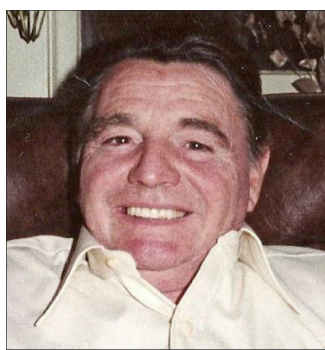

## Innovation meets practicality

### -Meet Your Neighbor

Robert J. Dwyer

A Good Neighbor Heating & Cooling is a multi-faceted, family owned and operated business located in Middlebury, IN. This is a four generation family business. The current owner; Bob Dwyer, Jr. grew up in the business. He began his own branch in his early 20's. Bob's vision for his company has been to preserve the integrity of the company his grandfather and father before him built up as well as to diligently strive to weed through the extreme amount of innovative and promising developments in the Heating/Cooling/Home Comfort industry to offer his customers only the tried and true winners ...not the hype, not the fads, not the systems that offer false hope. The com-

Robert J. Dwyer, Sr.

pany is currently studying several of the new "green" innovations out there. Bob understands that now, more than ever, the consumer is focused on two things; saving money and saving the planet. In Elkhart County saving money is vital right now. We are in an economic slump, however, there are still dollars circulating, we are all just being a bit more calculating in how and where we spend those dollars. High utility bills can be crushing but how do we avert high utility bills without going poor in the process? Bob Jr. has definitive answers to these questions. You can reach Bob at (574) 825-

1677 with questions you might want answers to today.

A Good Neighbor not

Robert J. Dwyer, Jr.

only offers service and installation on all types of furnaces and air conditioners, they also excel in many other areas of home comfort such as:

- Air Advice (find out what's in the air in your home)
- Air Duct Cleaning
- Radon Testing (did you know that Radon is the #2 cause of Lung Cancer in America and that Elkhart County is one of the most infected areas in the United States?)
- Carbon Monoxide Testing

- Blown Attic Insulation
- Humidifiers, Air Cleaners & Thermostats
- THERMAL IMAGING
- Dryer Vent Cleaning
- Tank-less Water Heaters
- Duct Sealing
- Far Infrared Saunas

Bob believes in Whole House Comfort. Our

Robert J. Dwyer III

homes should be our safe haven, yet many times they are not. As Bob has grown in the industry, he has also noticed a very real and present need for the consumer to be able to measure the toxins and VOCs in their homes. So many suffer with allergies, asthma and other breathing disorders; some of which are aggra-

vated by the very air they are breathing within the home. Every single service A Good Neighbor offers has everything to do with Whole House Comfort and Your Good Health. After much thought and consideration, they have recently added Far Infrared Saunas ... why? Well, it only makes sense ... if you are doing everything you can to remove the toxins in your home, perhaps you wish to take it a step further and also eliminate the toxins in your body.

Suffice it to say, Bob takes a very personal approach in the way he interacts with his customers. He truly cares about their needs and making sure they get the most for their money. Each and every perspective client that calls gets top notch service from the very first time they hear "Thank you for calling Good Neighbor". When those opportunities to create another satisfied customer come along, Bob takes the time to really listen to what is needed and then he makes sure the job gets done right.

## The Corner Office:

A Word from Bob Dwyer, Jr.

When it comes to our finances it is quite clear that the current economy has many of us "sitting on the fence". This is understandable yet it is also critical that we act on some level to effect a change in our community lest we become the next ghost town; evidence of a bad economic storm. I have spent many long hours trying to devise a plan to help our area's local merchants in "stimulating" our local economy. If we don't attempt to do something about it, we risk seeing the livelihood of our small towns fade.

With the unemployment rate looming over our heads like a black cloud, it seems there is no easy answer. What we should remember at this time is that the smallest of actions of the majority can affect the largest result.

We can make a difference in these tough times. All we have to do to ensure our vitality is to make a commitment to purchase locally those things which we would normally spend on and thus allow our dollar to work not only for our needs but also for the needs of the community as a whole.

It is to this end that I have committed to starting this newspaper. It is a huge undertaking, both financially and personally yet I feel that if someone offers an avenue/tool for local merchants and small business owners to use to reach out to local consumers, we might at least begin a path of renewal, rebirth and rebuilding ourselves and our citizens into a stronger and more stable community.

Keeping local merchants and small businesses alive ensure jobs in our community that are filled with our own citizens.

The loss of jobs and homes is taking a toll on all of us. We hope in some small way that the coupons within this paper will spur you into taking action (however small) that could affect a large result for us all.

I personally want to thank each and every one of my customers for their continued loyalty and I hope and pray that we weather this storm together ... only to witness sun filled days in the near future.

## ASK THE EXPERT

**Q** I heard that there are incentives from the Stimulus Plan for homeowners to purchase new heating and cooling equipment. Is this true? If so, is there a certain amount allotted for each homeowner or is it a percentage?

**A** It is true that there are incentives in place. These are allotted per homeowner at the rate of 30% of your investment up to \$1500.00. This is a true tax credit ... it is NOT a tax deduction. Ex: if you have a tax liability of \$2500.00 at the end of the year, you will only owe \$1000.00.

**Q** When everyone is suffering so much right now from the economy here in Elkhart County does your company have any incentives or offers to lessen the amount of a service call or do you offer payments?

**A** We have no-interest credit plans for people with approved credit. Several of our manufacturers are now offering rebate programs as well. Good Neighbor always has monthly specials and we offer a service coupon on our website [www.agoodneighboronline.com](http://www.agoodneighboronline.com). Just call us to find out more.

**Q** Is Nipsco still offering rebates if you purchase new equipment?

**A** Yes, Nipsco currently has tremendous incentives, some of them for as much as \$750.00! Their current rebate program is referred to as The Energy Harvest Program.

**Q** What is the biggest thing I can do today, all by myself, in my home that will cost the least amount of money but make the most significant difference on lowering my utility bills?

**A** 1. If you don't have a set-back thermostat; consider one. If you aren't able to consider one at this time ... simply turn your thermostat down in the evening while you sleep and during those periods of time when no one is at home.

2. Identify & insulate/seal spots where you know your home is leaking air. The EPA offers free literature on their website for instructions on insulating your home. Good Neighbor also has some of the EPA's literature available in their office. Stop by, it is free for the taking.

# CONTRACTOR'S SECRETS

Think twice. Before you purchase that maintenance agreement from your local Heating & Cooling contractor you should take the following into consideration. It all sounds pretty good when the heating & cooling guy comes out to your house and explains to you how you can become a preferred customer by simply having your furnace and/or central air serviced once each season. You'll even reap special rewards such as special pricing or priority dispatch (your call gets answered first) ... all you have to do is pay them in advance for the clean and checks. Sounds pretty good! Why would the contractor give you all of these special benefits just to have your equipment cleaned and checked? Let's think about it. He gets your money in advance, let's just

say that amount is \$200.00 ... if that same contractor has 2000 customers and each pays him in advance (\$200.00) that gives him \$400,000.00 in income without doing anything. We won't talk about the interest that he is able to make from that \$400,000.00 ... let's just keep it simple; let's consider that he has you "locked-in" because you've already paid so you can't take advantage of his competition's sales price. He knows you're going to call him because he already has your money. So let's think about this. It's 95 degrees outside, the contractor's phone is ringing ... one call is from you saying "hey my a/c is broke ... I need you out here right away ... I have a maintenance policy" and the other line is a new customer saying, "hey my

a/c is broke and the first company that gets out here gets the job" ... remember ... he already has your money ... where do you think he is going to send his truck? We can find NO BENEFIT for you, the consumer, to buy a maintenance policy and pay a contractor in advance for services. What if that contractor goes out of business after he has collected that \$400,000.00? Be smart. When a contractor wants to lock you in with a maintenance or service contract tell him "NO" ... make him EARN your business the old fashioned way. Remember ... these maintenance contracts were designed to help contractors increase profits and lock in customers ... not to help you.

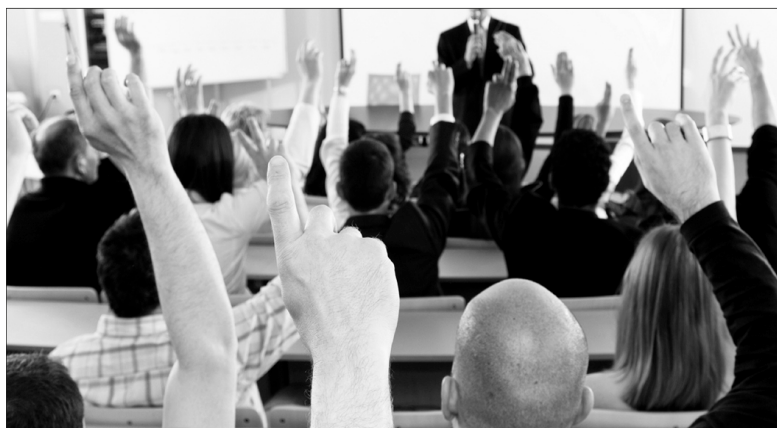

## Coming Soon:

## LETTERS TO THE EDITOR

It seems as if every newspaper you have ever opened has a section that invites their readers to participate on some level. We felt that a "Letters to the Editor" section would be a good place for us to start. We invite you, our readers, to either submit comments on current events and/or the paper itself, or ask questions on a topic of your choosing.

Please keep it light and uplifting whenever possible. We look forward to hearing from you. We reserve the right to limit and/or edit any submissions at our discretion. Please email all inquiries to [AGNeighborNews@aol.com](mailto:AGNeighborNews@aol.com).

## Coming Soon:

## From The Pulpit

### Attention: Local Clergymen/women:

Most local newspapers run a list of the churches in our area. That list is very helpful to people that are new to the community and seeking a church to become a part of as well as those that have lived here for a while but haven't yet found a church home. One thing these lists don't offer, though, is a feeling for what happens inside our various churches.

**FROM THE PULPIT** will be a monthly article featuring local clergymen/women who are willing to donate a bit of their time to write between 300-350 words either telling us about their faith, their work, their church or perhaps they will feel led to share a message that they have on their heart. Keep in mind that some of our readers don't have a church home, perhaps they're not even seeking one but this could be your opportunity to share an encouraging word with them. I am looking forward to seeing how this space is filled. We only have space to accommodate 12 preachers/pastors/ministers/priests per year so get your submissions in early! It won't cost your church a penny ... it will only cost you your time to write it and email it to us! Your submissions can be emailed to [AGNeighborNews@aol.com](mailto:AGNeighborNews@aol.com).

## Notice: Miller's Farm Market & Greenhouse is Now Open

Miller's Farm Market & Greenhouse, located at 51538 C.R. 19, north of CR 6 in Bristol, Indiana is now open every Monday through Saturday from 9 AM to 6 PM and every Sunday from 9 AM to 4 PM. Judy and Lloyd Miller offer a wide variety of flowering and vegetable plants, decorative items and fresh produce. For more information call: 574-848-4715

# GO GREEN! Is GREEN good or is it all HYPE

We see it everywhere; go green! "Green" has been marketed to subliminally make us think of buzz words like cheaper, better, wiser. Going "green" is better for the environment, right? It's at least better for my pocketbook, isn't it? Okay ... you at least have to concede that it is better than what we've been doing!

Let's look a bit further before we decide.

First of all, going "green" is more about saving the planet than saving

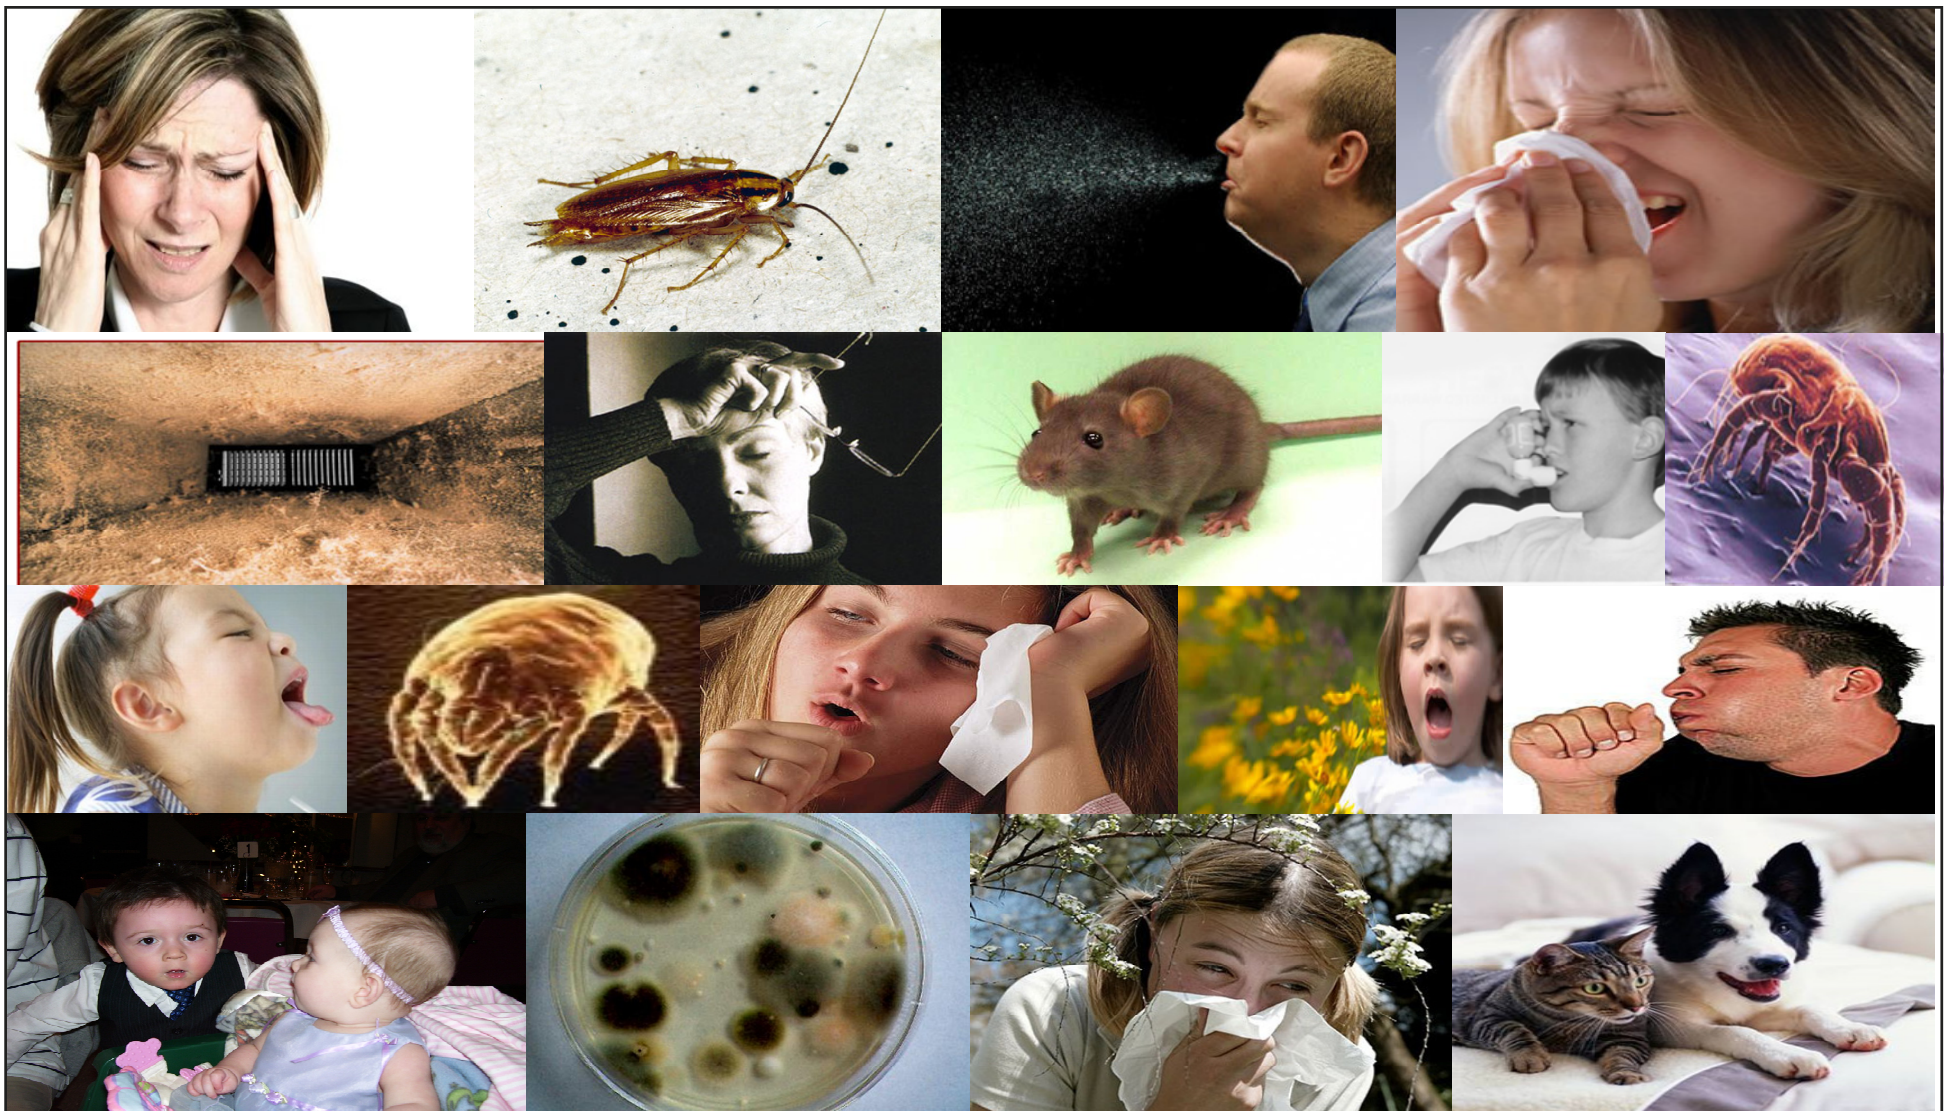

you money. This was the initial basis of the "green" movement and it hasn't changed course. It is, however, a great marketing concept when used in relation to the promise of money savings. Having said that, let me say this ... there are ways we can do things that will be environmentally more protective and possibly save us some money long-term.

Going "green" is decidedly better for the environment if you're speaking in terms of less indis-

soluble waste. However, we have been known, historically, to spend vast amounts of money to create methods of reutilizing/repurposing/reformulating materials to cut down on indissoluble waste (which is good) only to realize that in the process of our creation our very methods pollute the air and sediment. The entire concept of going "green" can be a very challenging process in and of itself.

What are cost saving ways we can go "green" at

home and make a difference that will help our environment and won't hurt our pocketbooks in the process? We will answer this question and more in our next issue and those beyond. In the meantime, do your homework. Challenge us in this arena. Let's find out together what the truths and myths are in the wonderful world of Go "Green!" Submit your findings to; AG-NeighborNews@aol.com. We look forward to hearing from you!

## Air Duct Cleaning Facts:

- ✦ Indoor air has been found to be up to 70% more polluted than outdoor air (EPA)
- ✦ Children are more likely than adults to be affected by polluted indoor air (Dept. of Consumer Affairs)
- ✦ The average 6 room house collects 40 pounds of dust a year (Discover Magazine)
- ✦ Air ducts have more germs than a chicken coop (American Lung Association)
- ✦ A build-up of 0.42 inches of dirt on a cooling coil can result in a decrease in efficiency of 21% (EPA)
- ✦ 9 out of 10 heating, ventilating, air conditioning system failures are caused by dust and dirt (Louisiana Coop Extension Service)

# FAR INFRARED SAUNAS; Creating A New You!

The far infrared sauna is a natural remedy to age-old problems. The health benefits of this type of therapy are innumerable. There has been much excitement surrounding the infrared saunas amongst the health-conscious. Infrared sauna therapy is the latest method of easing aches and pains and eliminating toxins from the body naturally. While the traditional steam sauna is well known, the heat in these rooms often gets too high to be able to tolerate for very long. Using infrared light technology allows the user to stay for much longer (up to an hour) at a lower tempera-

ture, yet with the same benefits as a hot, steamy room.

The special infrared heaters used provide a special heat that actually penetrates the skin and warms up to an inch and a half into the body. This works just like the sun but (note this) isn't damaging in any way. In fact, quite the opposite is true. This type of heat has many recognized benefits. Here are just a few:

- Increased circulation.
- Higher metabolism.
- Detoxification.
- Lowered stress levels.
- Reduced cellulite.
- Lose weight.
- Cleansing.
- Cancer treatment bene-

fits.

- Less energy used.
- Respiratory relief.
- More effective

So there you have it ... from weight loss to an improved immune system ... using this new technology is certainly a good idea. Rather than forcing the toxins out of the body with extreme temperatures and steam, the main sauna benefit is simply that it allows the user to sit for much longer periods of time at lower temperatures and thus experience more health benefits. Do you want to learn even more? Visit [agoodneighbor-](http://agoodneighboronline.com)

ronline.com and read all free demonstration (574) about Far Infrared Saunas 825-1677 in our show- or call ahead to schedule a room.

## NOTICE

**Important Information for  
Middlebury - Shippshewana - Bristol**

The Environmental Protection Agency recommends you test your home for Radon. The townships of Middlebury, Shippshewana and Bristol are in zone 1 (Highest Potential) for radon on the EPA map.

### Radon is being found at dangerous levels in these townships

**Radon** is the number one cause of lung cancer among non-smokers, according to EPA estimates. Overall, radon is the second leading cause of lung cancer. Radon is responsible for about 21,000 lung cancer deaths every year.

**Do you know what radon gas is?**

Yes  No

**Do you have radon gas in your home?**

Yes  No

**If you don't know the answer to both of these questions call for more important information on radon:**

## From our Kitchen

### *Aunt Carol's Cream Cheese Brownie Squares*

#### Ingredients:

- 3 oz cream cheese
- 3 large eggs
- 4 oz Baker's German's Sweet Chocolate
- 1 cup sugar
- 5 T butter
- 1/2 cup chopped walnuts
- 1/2 cup plus 1 additional tablespoon un-sifted flour
- 1 1/2 teaspoon vanilla
- 1/2 teaspoon baking powder
- 1/4 teaspoon salt
- 1/4 teaspoon almond extract

Preheat your oven to 350 degrees F (177C). Melt the chocolate and 3 tablespoons of butter over low heat while stirring constantly. Allow the mixture to cool.

Now beat cream cheese with 2 tablespoons of butter until soft. Slowly add in 1/4 cup of sugar and continue beating until light and fluffy. Add 1 egg, 1 tablespoon of flour, and 1/2 teaspoon of vanilla. Set cheese mixture aside.

Whip the remaining two eggs thoroughly until fluffy. Now slowly add 3/4 cup of sugar and beat until thick. Fold in 1/2 teaspoon of salt, and 1/2 cup of flour. Add to the cooled chocolate mixture and blend together. Mix in 1 teaspoon of vanilla, almond extract and walnuts.

Set 1 cup of the batter to the side. Grease an 8 x 8 pan. Spread remaining chocolate batter in pan. Pour cheese mixture over top. Spoon the chocolate onto the cheese mixture and swirl with a spatula to create marbling. Bake for 35-40 minutes. Allow to cool. Cut into squares. Cover and refrigerate.
